Terms and Conditions

Only the real property owner (Applicant) of property served by the city services may subscribe to city utility services, including water, sewer, sanitation and pressurized irrigation. Owner agrees to pay for the services at the rate, time and manner required by the City of Filer City code and rate resolutions of the Filer City Council. The City will make reasonable efforts to notify Applicant of rate changes through legal publication in The Times News, but the absence of such notice shall not waive the City's right to collect the new rates. The city may at its option install such meters, meter reading devices, and other devices it deems necessary to control and measure the quantity of water supplied. Supply of water, sewer, garbage and pressurized irrigation services are subject to the Filer City Code. The City is neither responsible nor liable to the applicant for any damage that may be caused to Applicant or Applicant(s) property by any failure of the water system that occurs in the building(s) and City water shut-off valve. The City is not liable to the Applicant for the consequences, if any, of reductions or interruptions in water supply caused by construction, power failure, fire suppression, repairs, shut-off by reason of non-payment, or otherwise, nor shall any of the same reduce or eliminate Applicant's obligation to pay the fees.

Applicant understands that only a representative of the city is allowed to turn on or off any City utility service. The Applicant further agrees to take no action to obstruct, cover meters or shut-off devices, or otherwise prevent the City's authorized representative from making records, readings, and inspections of the location, condition, and sufficiency of pipes, fittings, valves, cocks, fixtures, and appliances. Applicant agrees to grant free access to the City's authorized representative during reasonable hours to carry out such official duties necessary for the proper operation of maintenance of water and sewer systems.

In the event any account becomes 30 days past due and no communication efforts to make a payment arrangement have been made by Applicant, the City of Filer will shut off the water services. All disconnection fees apply and services will be restored only after the past due balance and reconnect fee of \$50 is paid in full.

Utility bill becomes delinquent on the 16th of each month. Penalties charges are applied to utility bills that are delinquent. Pursuant to the City of Filer Resolution No. 643, a late fee penalty of 10% of the total water charge will be assessed on the 16th day of the month when the balance has not been paid in full prior to that date.

Applicant represents that all information supplied herein is true and correct. Applicant understands that s(he) may be guilty of identity theft or obtaining property under false pretense for using another person's name as Owner or for signing another person's signature.
